Turn Everyday Sounds into Beautiful Moments

Welcome your loved ones with a heartwarming hug and spend a great afternoon together with relaxing conversations. Or play your favorite song at the piano and enjoy the harmonies.

Beautiful sounds are everywhere. If your hearing isn't what it used to be, try Juna Pico RITE. This sensibly small hearing aid can really help you hear and enjoy all of life's incredible sounds.

Juna Pico RITE is Bernafon's newest receiver-in-the-ear (RITE) hearing aid. Its special design meets all your expectations of a small and discreet device. In particular, the shape of the Pico RITE follows the shape of a human ear making it extremely comfortable to wear.

Turn Challenging Situations into Personal Triumphs

Juna Pico RITE is such a small but powerful device. With state-of-the-art technology, it has the potential to make a big difference to your life.

Would you benefit from technology that helps you understand conversations more easily? Bernafon's ChannelFree™ signal processing technology enhances speech understanding while providing optimal comfort in listening situations.

Would you benefit from a tiny device that helps you locate important sounds such as speech in busy places? With a set of different directionality features, Juna Pico RITE supports 360° sound detection.

Would you benefit from a hearing aid that helps you specifically in noisy environments? Various noise reduction features will detect the noise sources and cleverly reduce them so you can feel less disturbed and more relaxed again.

Would you benefit from having your hearing aids connected to your mobile phone and other sound sources? Juna Pico RITE can wirelessly connect to multiple devices via Bernafon's SoundGate. Sound from your music player, mobile phone, or an inductive loop system (in theaters, places of worship, etc.) can be streamed directly to your hearing aid. The slim-line RC-N remote control or the SoundGate App can also be an ideal companion to your hearing aids.

Turn a Small-Size Option into a Big-Impact Solution

Juna Pico RITE offers solutions for a broad range of hearing losses, needs and preferences. There are three speaker unit types and several earpieces for your hearing care professional and you to choose from.

Visit our website for further information about Juna Pico RITE and hearing losses in general. You can also speak to your hearing care professional if you have any questions about Bernafon hearing aids and accessories.
