Oticon Intent™

miniRITE

Oticon Intent comes with our new Deep Neural Network 2.0, MoreSound Intelligence 3.0 and MoreSound Amplifier 3.0 powered by the new Sirius™ platform. These upgraded features provide your clients with the full sound scene in much higher clarity and balance¹, and offer more sound and more headroom² than ever before. The 4D sensors in Oticon Intent 1 & 2 also seamlessly adapt to your client's specific listening needs - even within the same environment. Oticon Intent hearing aids are Made for iPhone, enabling streaming directly from compatible iPhone, iPad, iPod touch, and supporting hands-free communication. They are also compatible with the Android™ Audio Streaming for Hearing Aids (ASHA) protocol - enabling streaming directly from selected Android devices.

Oticon Intent miniRITE - our smallest, most discreet rechargeable miniRITE style ever. The style features telecoil and a single push-button, and features next-generation connectivity with Bluetooth® LE Audio.
