

mHEALTH
mobile health studio

WHAT IS MHEALTH STUDIO™

mHealth Studio App is our mobile interface for patient and facility data capturing and management. Its ecosystem design houses each mHealth solution for ease-of-use.

mHealth Studio Cloud is our web application for online data management, surveillance, referrals and report generation. Secure interoperable data monitoring in real-time.

KEY FEATURES

✓ EASY DATA MANAGEMENT

Centralised electronic health record (EHR) management

📄 DETAILED REPORTS

Create and download patient and tester reports

✉️ EVENT BASED SMS & EMAIL SYSTEM

Send custom SMS & emails upon test events

🔒 SECURE BY DESIGN

Data is secured with 256-bit SSL encryption
